

DAMIEN VICKERS PHOTOGRAPHY

NATURAL · CREATIVE · FUN!

· INTRODUCTION ·

I'm Damien. I'm a Cambridge wedding photographer shooting throughout the whole of the UK and beyond. My intention is simple; To produce beautiful images that capture the genuine spirit, emotion and joy of your wedding day with a relaxed, uncontrived and unobtrusive approach.

I'm a part of the newer breed of documentary photographers. My emphasis largely is focused on natural images and capturing genuine emotions. Laughter, tears, fun, joy and love.

Your wedding day will pass so quickly that it's hard to take it all in. The big moments of the day, the small details and the split second gems that can easily be missed in the craziness of it all –

you can rest assured, I will endeavour to capture them all in a vibrant, colourful and carefully composed set of beautiful images.

I treat every image as a piece of artwork and an important jigsaw piece in telling the story of your day.

My other passion is creating beautiful, romantic and genuine portraits of you as a couple – relaxed, in love and happy but most importantly being yourselves – all in natural soft light and surroundings. You won't see me to be carrying tons of equipment around and barking instructions at your guests. Just a few group shots for the family album and the rest is "as it happens"

· MY 10 PHOTOGRAPHER'S PROMISES TO YOU ·

1

NO TIME LIMITS

I will cover your wedding from as early in the day as you wish right through until you want me to finish. Most photographers end at the first dance, not me. I'll be there to capture your nearest and dearest having the time of their lives!

2

NO HIDDEN COSTS

Each of the things listed on my pricing page are included in my packages – with no additional costs including travel anywhere in England.

3

KEEPING TO TIME

Group photos are an essential part of the wedding collection, but not much fun for your guests. I use a system to get these done quickly, usually in around 15 minutes so you can all get on with the important bit – enjoying yourselves!

4

FAST TURNAROUND

Under normal circumstances I will have your photos ready in 2 weeks – just as many couples return from their honeymoon. You won't have to wait 6 weeks!

5

MIXING WITH THE BEST

I have been trained by, and work with some of the best and most highly regarded photographers in the UK.

6

NO BULK EDITING

A lot of photographers outsource their images to be edited by a third party because they're too busy to do it themselves; I don't. Every image is carefully and individually edited by me to look and feel as it did in the moment.

7

QUALITY OVER QUANTITY

I limit the number of weddings I shoot in a year and I never shoot back to back weddings within a couple of days. I like to ensure my couples receive the highest quality work.

8

OPTION FOR A SECOND PHOTOGRAPHER

I have a good network of other highly regarded photographers that I can call on for the ultimate coverage.

9

STAYING CURRENT

I invest a lot of time and money keeping up to date with the fast moving changes in both photography techniques and the wedding industry; this allows me to offer both a wealth of experience and a fresh and current approach.

10

I LOVE WEDDINGS

I really do! I am so lucky to do what I do and I never forget that. I have tremendous fun at every wedding and I believe that shines through in the photos.
