Celebrant ceremonies are not restricted by religious or civil limitations: they can include symbolic gestures and any choice of music, readings or themes. My ceremonies are completely bespoke, distinct and deeply meaningful.

Your Day ~ Your Way!

Couples are seeking the option of a celebrant-led ceremony, preferring to create a personalised wedding of their dreams rather than be restricted by religious or civil limitations. Schedule your legal civil ceremony at a Register Office, and then you are free to plan your wedding ceremony to include your personalised vows, your preferred content, readings and music of your own choice, any format that you prefer and any theme that your heart desires!

Eloquent. Distinctive. Memorable.

My ceremonies are beautifully written, tastefully creative, thoughtfully personalised and professionally facilitated. My clients tell me that I am engaging, welcoming and inspiring to work with, and I would love the opportunity to support you with a beautiful and memorable ceremony!
