## *The Baronial Hall*

**T**o enhance the classic effect, we purchased the rosewood floor from County Hall, near Westminster Bridge, London. We had it laid ancient style in bitumen, we are told that we have one of the rarest wood block floors in the United Kingdom, it makes that special difference. The main chandeliers are replicated from that period and adds a sense of grandeur. The hall underwent extensive refurbishment and improvements in 1995. The walls were constructed with modern thermal materials, which makes the acoustics similar to a recording studio, great for music.

There is a fully stocked bar with open access to the main hall, adjacent to an external seating area. The hall, bar and gardens have themed lighting, to match the colours you have chosen for your special day.

**The Ceremony Room:** Built some 20 years ago and compliments The Main Hall, this room is located directly off of the Main Hall, therefore your guests are encompassed in one building throughout your special day.

**The Willows:** This private area located adjacent to the main hall, it is where the Registrar will carry out the pre ceremony interviews. There is a toilet and make up facilities, The Willows is a lockable area. At the end of your day our staff will ensure your belongings are safely stored overnight ready for collection the following morning.

**Secluded Gardens:** There is direct access to the half-acre private garden, perfect for wedding photographs. When weather allows, we have built an amphitheater style setting, under a floral canopy, which makes the perfect garden setting for the ceremony.
