2018 Brochure

We are wedding, corporate and event film makers based in Stirling, Scotland providing creative and engaging film services. We generally cover Central Scotland, Glasgow and Edinburgh but are available further afield if required.

Videos have become an essential and entertaining part of our lives - they thrill us, amuse us, capture our special occasions, and offer an insight into worlds we would not normally get a chance to see. For a wedding day, videos can capture those magical moments forever.

Unfortunately, many individuals and businesses are reluctant to create videos because they assume it will be expensive and even overpriced. However, we intend to make creating videos more accessible to many.

r7c media is owned by Austin Mitchell. We use the latest equipment, software and cutting-edge apps to create high quality films. This allows us to offer you a top-notch video service at attractive price-points for your special day.

All our packages are tailored to meet your unique requirements, and feature pre-production services (discussion and planning), production (actual shooting), and post-production (editing and music). You will receive your own online portfolio and/or a boxed USB stick (wedding package dependent) containing your films.

For stunning films that create the right impact or trigger a fond memory, please contact us.
