great wedding

We had a great time at our wedding. It was a niche experience because we both come from different countries/cultures (Perú/Scotland), and had guests from all over the world. We provided Keith with some key songs we wanted to definitely have for the party - and people looved it. He read the audience very well and had a great time. Thanks, Keith - and thanks for your...

Absolutely Amazing!!!

You will regret not booking this DJ!! Keith was amazing! I could always email him and receive a prompt response. He had our guests up all night with banger after banger!! The only time our floor was empty was when our buffet was on! And shortly after there were folk back on - fish and chip pokes in hand. He is out of this world and made our first dance incredible!...

Excellent service

We booked with Keith well before the pandemic and before our original wedding day was postponed...a year and a half ago. Even throughout this he was excellent at keeping us updated and was more than accommodating for our new date. Was very responsive and organised. Even on our wedding day, it was seamless and he went above and beyond to make the entertainment work. Couldn't recommend his services enough to anyone. Absolutely fantastic and very professional.

Our Perfect Day

Des and I booked Flex for our DIY marquee wedding based on a recommendation from another wedding. Everything was brilliant throughout. Keith was extremely professional and knowledgeable and provided helpful advice during the planning, not just about the music and dancing, but also the logistics for the day. On the day, he took care of all our audio needs, including mics for speeches and my daughter singing with piano, as well as the fab disco and lights. Keith took input on our music tastes and requests from our guests in advance, then on the night incorporated those along with what he could see was getting everyone dancing, which worked perfectly. Our friends and family had a fantastic time and we received many enthusiastic comments about how great the disco was. For us it was the icing on the cake of our perfect day and would like to thank Keith for helping to make our wedding so special. We highly recommend Keith and wouldn't hesitate to book him again.

The best day ever!

We booked Keith for our wedding in Blairgowrie this August and he was such a dream to work with from start to finish! When we first met him he was brilliant with taking us through everything we needed to think about and was so accommodating with our song selection. Then at the venue, his whole approach to setting up was great. The DJ booth looked stunning and he also supplied additional lighting and mic to help set the mood for the night. In terms of the actual disco itself, the dance floor was never empty! We had a brilliant time and got so much positive feedback from our guests! Keith is super professional, accommodating and really helpful! You're bound to have a full dance floor all night!

I hired Keith after he DJ'd at my sister-in-law's wedding as I knew then he was fab. I've lost count of the comments my husband and I have received, both on the night and following our wedding, about how good the music was and asking who our DJ was. People I know who are getting married and having a band are thinking of switching over. The dance floor was chockablock the whole night, people hoarse with singing along to the tunes and he catered for everyone – from Scottish country dancing to soul music, sixties to pop and old school house. Fantastic and no one wanted the night to end. I can't recommend Keith enough, great lighting, great interaction at just the right level and very decent price. I can't recommend him enough.

Thank you for making my 50th Birthday party go off successfully!

I've had amazing feedback from guests who raved about the playlist - My requests, feedback and overall thoughts about how the music should feel was taken into account, and the crowd responded.

From turning up super-sharp and liaising with the venues' in-house tech , to dealing with my off schedule itinerary and informing and responding to the guests- top class service until the very last bow off the dance floor.

No fuss or drama - which made it a huge part of my night that I had zero concerns about.

Rendezvousing with other suppliers, visiting our venue in advance, putting our minds at rest prior to the big day... he seemed to have it all mapped out without us having to do much at all. The night itself was fantastic and everything went flawlessly with his dj set/the speeches/the band. Our guests definitely agreed.
