

### **Before the Wedding**

My service starts long before the big day. I will meet you to discuss your plans and ideas and perhaps throw in a few of my own. I can advise on all aspects of photography and answer any questions or concerns. We will go over your itinerary to find the best times and locations for any set photographs and work out how to get what you want within the time constraints of the day.

### **Your Wedding Day**

I will be present for the whole day, starting with the bridal preparations and staying right through to the evening celebrations. I am expert at keeping out of the way and capturing the excitement, atmosphere and emotion of each stage. We will also spend a small amount of time on an informal creative shoot.

### **Your Photos**

While you enjoy your honeymoon, I will be preparing your wedding images and creating your web gallery so you can see your pictures as soon as possible.

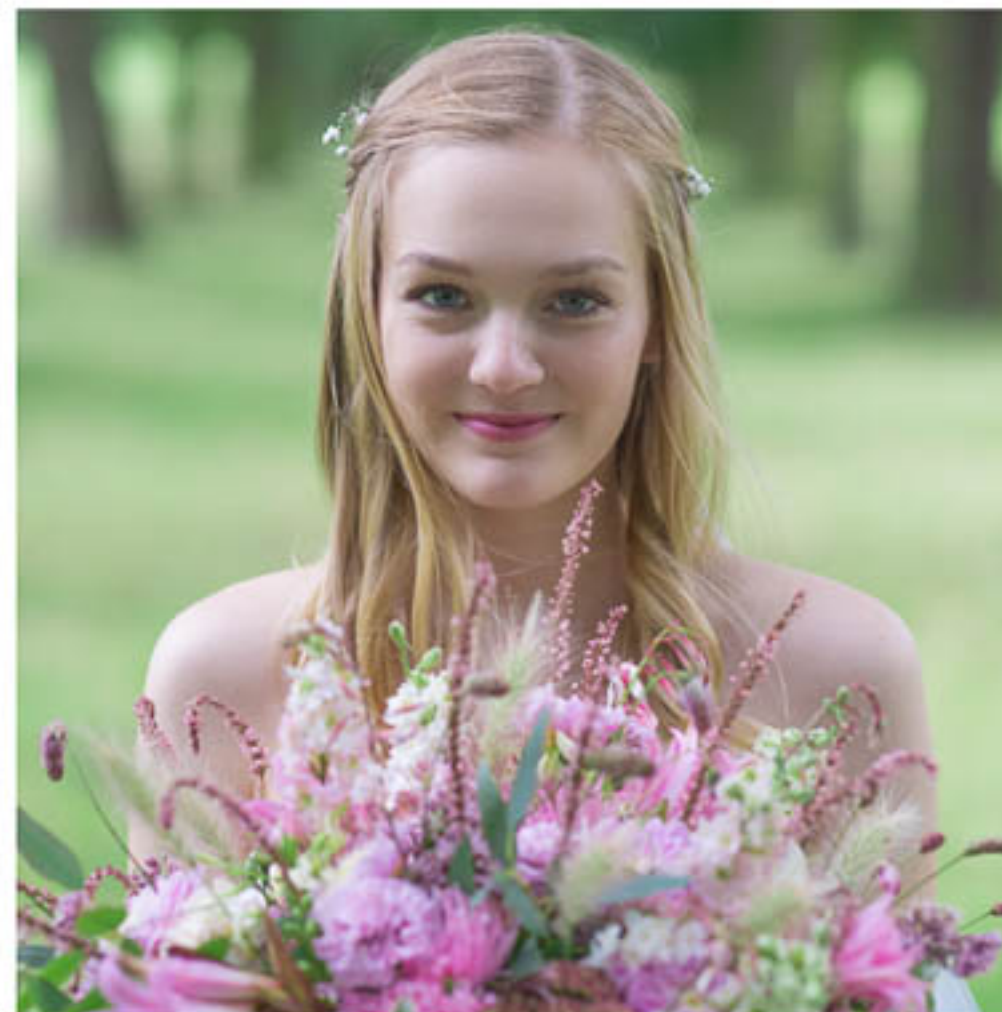

### Naturally Beautiful

My aim is to capture your day as it unfolds and to take naturally beautiful shots making use of the surroundings that you have chosen.

"These aren't just photos but pieces of art work now displayed on our walls. The quality of the products are exceptional and the photos are stunning"

**Susan & Mark - Hever Castle, Kent**

"I would not hesitate in recommending Alan as a photographer - he is highly professional,  
great fun to work with and the quality of his photography is of the highest standard"

Amanda & James, High Rocks, Kent

### Engagement Shoot

This is an excellent opportunity for you to mark your engagement period with a set of beautifully crafted images.

These photos can be used to create a guest signing book for the wedding day or even designed into a beautiful engagement book to match your wedding book.

A further benefit is that we will get to know each other a little more and when your wedding day arrives, you will be familiar with my style of shooting and will be comfortable with having your photograph professionally taken.
