### **Why choose a wedding celebrant?**

Choosing a Wedding Celebrant means you have the flexibility & freedom of choice to hold your wedding ceremony where you like, when you like: With so many hidden gems to choose from; stunning private estates and hotels, castles, beaches, and many other beautiful indoor and outdoor locations, unlicensed or licensed for marriages, and many other meaningful spots including perhaps, where the proposal took place or in the surroundings of your own home, anything goes.

### **Are Celebrant Led Weddings flexible when it comes to time?**

Yes. Unlike Registrars who, more often than not, have more than one wedding to perform on any given day, especially during the busier wedding season. Couples sometimes have to take a wedding slot that is available and not necessarily the day or time they wished for. The ceremony is restricted to about half an hour and if there is a delay the Registrar may move on to another wedding.

Wedding Celebrants are not restricted to time and most, if not all, only perform one ceremony in a day, giving their couples their undivided quality time and attention.

### **What Is a Celebrant Led Wedding?**

A celebrant-led wedding allows you to overcome the strict, traditional restrictions that are found in religious and civil ceremonies. They give you the opportunity to inject personality and heart into your special day, creating something that is truly unique and captures the essence and love of your relationship.

### Why Choose A Celebrant Led Wedding Ceremony?

- I will create a unique ceremony from start to finish, one that truly reflects you as a couple.
- Couples who have married abroad may wish to celebrate with family and friends back home. A great way to re affirm their commitment to one another in front of their loved ones.
- To renew wedding vows and finally have the big wedding day dreamt of those years ago.
- To celebrate a milestone occasion, such as a 10th, 25th, or even 50th wedding anniversary, letting the World know that you would do it all over again!

Bernadette will help you to reflect upon your journey so far, painting a picture of friendship and love. You can recall those memories of love and excitement felt on your wedding day!
