

About us

We are a family-run business. Floral love and gardening are part of our genes, thanks to our Goan farming roots. Having planned & designed our own wedding, we understand the priority is to make your wedding day memorable and less stressful. Therefore, we believe that throughout this process, you will feel the support from us. We are excited to be a part of your journey as you'll take your steps towards being a lovely couple.

We offer a free consultation. Moreover, we provide you with options if you are not sure and work according to your budget. Alternatively, you can send us your requirements with any references i.e. @anb_ferns Pinterest, color palette, mood boards, etc.

Furthermore, we assure you to come up with something unique, personal, and relatable to you. We make sure to wow you on your big day. Also, we can arrange your requirements according to the authentic traditions of our proud Indo-Portuguese culture or anything that suits your needs.

We don't offer packages as every arrangement will be bespoke for each wedding if requested. Our prices are reasonable. Moreover, the business is more about love for us. In addition, the excess flowers from your order will be arranged free of charge for you or donated to the local churches in your name.

Please check/share/donate our fundraiser for the special ones. Link in Bio.

Thank you
